George A. Hashim, Ph.D.
Associate Resesarch Director
The Council For Tobacco Research - U.S.A., Inc.
900 Third Avenue
New York, NY 10022

Dear Dr. Hashim:

Let met thank you on behalf of the Academy for your generous support in the amount of \$1,000 for our conference entitled "Inhibition of Matrix Metalloproteinases: Therapeutic Potential" to be held January 19-22, 1994 in Tampa, Florida. We certainly appreciate your contribution. It will go a long way to insuring the quality of the discussion.

The Council For Tobacco Research - U.S.A., Inc. will in the conference program and the resulting volume of the Annals as a Contributor and will receive one free copy of the volumes of the Annals from the conference. In addition, you will have the option to purchase a maximum of 50 additional copies at the pre-publication price of \$35.00 and as many other additional volumes as you would like at 50% of the full publication price.

An order form for publication is enclosed. The order for the copies at the pre-publication price must be returned to us by the last day of the conference, January 22nd. Although the full publication price has not yet been determined, Annals volumes usually cost approximately \$125/volume. Orders for additional copies at the 50% discount may be sent at any time. Your order will be processed automatically once the volume is published, typically about one year after the conference.

Conference supporters each receive one guest registration no matter what the level of contribution. Supporters also receive additional guest registrations based on the amount of contribution over \$5,000. I have enclosed a form stipulating the number of guest registrations we can offer you and asking for the name(s) of the people who will use them. Their full conference packets will be waiting for them at the door. We'd appreciate having this form back by December 1, 1993.

Again, our thanks for your generous support of Academy programs.

If you have any questions at all, please feel free to call me.

Sincerely yours,

Lynn Serra
Development Manager
